Action Item

Agenda Item No. **4**

City Manager Approval

To: Mayor and City Council Members
From: Bernie Schroeder, Director of Public Works *BS*
Megan Siren, Administrative Analyst *MS*
Date: July 22, 2013
Subject: Corporation Yard Equipment Purchase - Chipper

The Issue

Shall the City of Auburn approve the purchase of a Chipper for the Public Works Corporation Yard Division?

Conclusion and Recommendation

Staff recommends that Council, BY RESOLUTION, authorize the Director of Public Works to purchase a Chipper from RDO Equipment Co. in an amount not to exceed \$39,000.

Background

The chipper is equipment heavily utilized by the Public Works Corporation Yard staff in a variety of maintenance activities including tree and brush removal on City streets, sewer and storm drain access projects and Airport clearing operations. Currently, the City has a 2006 chipper that has a 49 horsepower engine flywheel type-feed system chipper rated for a maximum 9 inch diameter branch/tree. Although the existing 2006 chipper is in fairly good condition, it is under-sized and does not have the ability to meet the needs of the Corporation Yard. The proposed larger 74 horsepower chipper will have the ability to chip up to 12 inch diameter trees and has a more efficient drum feed system. The City has experienced several large trees coming down over the last several years and the larger chipper would have streamlined the project significantly. The new chipper will allow the Corporation Yard to utilize equipment efficiently. The smaller chipper will be surplus the next time staff brings forth a surplus list.

Publics Works Corporation Yard Staff received bids from 2 firms. Staff has determined that the lowest responsive bidder is RDO Equipment Co. from Sacramento in the amount of \$37,886.64.

Alternatives Available to Council; Implications of Alternatives

1. Proceed with Staff Recommendation
2. Do not proceed with staff recommendation

Fiscal Impact

The FY 2013/14 Approved Operating Budget includes the purchase of the Chipper with a funding amount of \$39,999. The chipper will be purchased from the following funds: FEP, Gas Tax and Sewer Fund; with each fund paying 1/3 of the cost of the chipper.
